

## **Let it Snow, MVBC is Ready**

Thanks to the diligence of our landlord Wayne Penrod, MVBC is equipped to handle all snowstorms except the most severe blizzards of double digit snowfalls that would be classified as Level 3 emergency storms.

During the initial phase of a snowstorm, Wayne's trucks spread salt in our parking lot & entry ways, and then at the near conclusion of a storm, plows our parking lot so it is clear.

A general rule for players should be:

If you can get out of your driveway at home, the Bridge Center's parking lot will be as clear as any major Dayton area thoroughfare.

Additionally, Presidential Way is designated by the City of Kettering as a major thoroughfare and will receive first priority for snow removal. Hempstead Station is considered a secondary road. Players should use Presidential Way in lieu of Hempstead Station while driving to the Bridge Center.
